**DETAILED ACTION**

***Election/Restrictions***

1.       Applicant's election without traverse of claims 1 and 2 in the reply filed on 01/25/2008 is acknowledged.

***Specification***

2.       Paragraphs [0005]-[0024] of the Specification are objected to because they refer to claims 1-18 in the Claim section. It is to be noted that during the prosecution, the scope of the claims may change or some claims may be cancelled. Therefore, paragraphs [0005]-[0024] may not be relevant anymore. Appropriate correction is required.

***Drawings***

3.       Figure 8 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1 and 2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, the phrase "band-like paper" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "band-like paper "), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

***Claim Rejections - 35 USC § 102***

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Hideo (JP2002-284,430).

Regarding claim 1, Hideo teaches a cut off method for a cut off apparatus including:

a preceding knife cylinder 2 on whose peripheral surface a preceding helical knife 8 is provided;

a following knife cylinder 3 on whose peripheral surface a following helical knife 9, which cuts off a paper in cooperation with the preceding knife, is provided;

preceding knife driving motor 26 which rotationally drives the preceding knife cylinder;

a following knife driving motor 24 which rotationally drives the following knife cylinder; and

a cut off control device 27 which individually controls the preceding knife driving motor 26 and the following knife driving motor 24,

wherein the method comprises: giving, when the band-like paper is cut, the preceding knife and the following knife a specified amount of torque in the direction in which the preceding knife and the following knife are pressed against each other, by means of the preceding knife driving motor and the following knife driving motor (see the Abstract).

Regarding claim 2, since the rotating speed of the preceding knife cylinder 2 and the following knife cylinder 3 are equal and the knife cylinders (2 and 3) are under equal bending force due to the thickness of a workpiece, the value of the torque given by the preceding knife driving motor 26 and the following knife driving motor 24 is equal.

***Conclusion***

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to PHONG H. NGUYEN whose telephone number is (571)272-4510. The examiner can normally be reached on Mon-Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Boyer Ashley can be reached on 571-272-4502. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
